The Journal of Science and Technology Policy Management (JSTPM) offers an intense debate on science and technology issues in the hope of influencing the wider community of policy makers and academics. JSTPM provides readers with timely insights on the latest developments and trends in science and technology around the world, especially in emerging economies. With this aim, the journal publishes high quality theoretical and empirical papers that provide a better understanding of the role played by science and technology in the economic growth and well-being of citizens.

Submit your research now!

Submissions to Journal of Science and Technology Policy Management are made using ScholarOne Manuscripts, the online submission and peer review system.
