Cultural Organization

Office for
Climate
Education

UNDER THE AUSPICES OF UNESCO
AND THE FOUNDATION LA MAIN À LA PÂTE

The Office for Climate Education (OCE) is an international organization based in Paris working to promote climate change education worldwide, by producing pedagogical resources and professional development for teachers and trainers. True to its mission, the OCE is organizing an international seminar on climate change education, in partnership with the French Ministry of Higher Education, Research and Innovation.

INTERNATIONAL SEMINAR ON CLIMATE CHANGE EDUCATION

Objective

This seminar is intended for teachers, teacher trainers and decision-makers of foreign educational systems wishing to discover and get acquainted with the latest methodologies and tools on climate change education (CCE).

This seminar will aim to:

- ~ **Facilitate a dialogue** between stakeholders, scientists and educators on CCE.
- ~ **Share best practices on CCE.**
- ~ **Facilitate cross-collaborations** to implement CCE projects, especially in Southern countries.

Structure and costs

This seminar will be comprised of one week of conferences, workshops and field visits in France, including:

- ~ **Workshops on CCE approaches:** inquiry-based and project-based learning, interdisciplinarity, eco-anxiety, critical thinking, etc.
- ~ Construction of **teacher development programs.**
- ~ **Strategic planning and implementation** of climate change in national curricula.
- ~ **Class visits.**

Most activities will take place in Paris, and its surroundings. Seminar related costs and accommodation will be covered by the OCE. Travel costs to France, visa, airport transfers and some meals (some dinners) will be at participants' expense.

Participants

The seminar will host around fifty participants from various countries, outside the European Union, comprised of educational system officers, academics in charge of teacher professional development, and other stakeholders in CCE.

CRITERIA FOR APPLICATION

During the review of the application, attention will be paid to the impact that participants could have on national initiatives in CCE (e.g.: public policies, teacher training institutions, pilot programmes).

Double applications (2 persons from the same country, 1 decision-maker/1 trainer) are required; the profiles of the participants have to be complementary to guarantee a better transfer within their national system. The participants will have to be proficient in English.

DATE AND PLACE

Date 17th to 21st of January 2022
Localisation Paris, France

CALENDAR

Deadline for application October 18th, 2021
Selection of participants October 25th, 2021
